Dear «Title» «Last\_Name»

## **COMMUNITY CONVERSATION – WASTE MANAGEMENT AND RESOURCE RECOVERY**

As you know, the South East Metropolitan Regional Council (SEMRC) is undertaking a feasibility study into the development of a Resource Recovery Facility which would process the region's waste. The addition of Serpentine-Jarrahdale, Mandurah and Murray into the study provides an exciting opportunity to develop a long term strategic approach to our waste management.

As a part of the study, we have commissioned ERM Australia to undertake an extensive community engagement process. One component of this is a series of community conversations regarding waste management and the siting of a resource recovery facility.

On behalf of the SEMRC, I would like to invite you to observe the community conversation which will be held on «Date» between «Time» at «Location». If you intend on coming, could you please advise Nicholas Young at ERM on 9321 5200 or email [nicholas.young@erm.com](mailto:nicholas.young@erm.com) by Monday 4 September.

Yours sincerely

**JAN GRIMOLDBY (MS)**  
**CHIEF EXECUTIVE OFFICER**
